A Special Place for Special People

The Wellesley Central Place

You've arrived:

Welcome to the new Wellesley Central Place. This state-of-the-art Nursing home builds on the years of experience and tradition developed as its sister home down the road, the Rekai Centre.

From the moment you cross the large front porch and enter the main door on Wellesley Street, you will sense the warmth and magnificence. This urban oasis in the heart of downtown Toronto has been designed to provide the ultimate in care in the intimacy of a small town environment.

The ground floor is unparalleled in its amenities. Visit with your family and friends in the Activity Room with its Aviary and cozy fireplace, or treat them to a coffee in the café. Perhaps you prefer a stroll in the gardens, there are two enclosed courtyards designed specifically to provide access to the out of doors. When the weather outside is frightful, choose the Wintergarden as your resting spot. There are more porches, a barber shop, hairdressing salon, and even a family suite where out-of-town guests can be accommodated should the need arise. A place of worship is also located on the main floor.

Resident home areas are located upstairs. Each Home Area accommodates 25 residents and has its own beautifully appointed dining room with fire place, activity room, and lounge area. It's hard to believe you are in a Nursing Home. The resident rooms are large so you will have lots of space to personalize your own room. Each resident will have his own private room and couples may be accommodated in 2 rooms with an adjoining bathroom. We do your laundry but there are free Laundromats in each Home Area.
